

SS4A Steering Committee Seeking Volunteer Residents

The City of Willowick is the recipient of a federal Safe Streets for All (SS4A) grant. The purpose of this grant is to develop a plan determining and justifying needed improvements that enhance transportation safety and to help the city find and qualify for construction grant funding. We are currently seeking 3 volunteer residents to sit on a steering committee for this grant. The steering committee will help to guide the plan, provide input, help with public engagement, and determine plan direction. The committee will meet monthly or bi-monthly as the study moves along. Duration of the study is anticipated to be approximately 2 years. Volunteers need to be Willowick residents for the duration of the study. If interested, please email Service Director Todd Shannon at tshannon@cityofwillowick.com. Application deadline is September 26, 2025.
