

Great Lakes Crushing, LTD
Established 1996

Date of Work: July 14th

Dear Residents,

This notice is to inform all residents of **305th Street** that the traffic patterns will be changing as we wrap up the first Section (Lakeshore to Willowick Drive/Powell Road)

- By the end of July 14th:
 - North of Willowick Drive will resume two-way traffic
 - South of Willowick Drive to Barjode Road will be limited to one lane of southbound-only traffic.
 - The East side of 305th will be closed for reconstruction.
- This notice is to inform you of a temporary change to trash collection procedures during the upcoming construction period.
 - From July 14, 2026, through August 2026, trash pickup will occur at 6:00 a.m. To ensure collection is not disrupted, please place your trash containers next to the construction barrels located near the center of the roadway rather than at your curb when your side of the street is closed to traffic
 - After your containers are emptied, GLC workers will return them to your curb.

Thank you for your cooperation and patience during this work.

Sincerely, Your Construction Team
